

Fodder for Antisemitism

Social media plays a significant role in influencing views by amplifying events and opinions. The posts can be both constructive and they can be outright fake. Even worse, they can be subtly misinformative, which is especially harmful because it lends credence to lies. On social media platforms, I deal only with issues of which I have first-hand expertise. One of them is West Asia. Attached is a selection of posts on Israel, Gaza, and Zionism in which I was able to add value. These give an idea about issues that can contribute to antisemitic sentiments.

Levy likely means is that the Nazis' #Holocaust—Israel's emotional blackmail tool against the West for 70 years—has lost its potency amid the #GazaHolocaust perpetrated by its own #NeoZionistNazis. So Norman Finkelstein should rename his book “The Shoah Industry”?

Either way, it's just another example of how the American Jewish establishment exploits the memory of the Nazi Holocaust for political and financial gain and to further Israeli interests.

Thanks for helping bring attention to this ongoing scam.

Eylon Levy @EylonALevy · Apr 14

Please say “Shoah,” not “Holocaust.”

The latter has been emptied meaning by those who have erased the Jews from the story of their own genocide and made it about every bad thing the Nazis did.

The Shoah was the Nazi Genocide of six million Jews. Use our Hebrew word.

White Ashkenazis & Zionist Racism

This is a must-listen 3-minute oral autobiography.

My experiences since the 1960s with non-Ashkenazi Jews confirm what #AviShlaim so eloquently describes. The Arab jews in Israel faced rapacious discrimination, social and economic, at the hands of the #Zionist Ashkenazis. That explains why many #Mizrahi jews migrated to Australia (which reluctantly accepted the "unsuitable aliens" - marked by less than flawless white skins - under British pressure).

The inherent racism of the White European Ashkenazis, who rule the Zionist roost in Australia and other Western societies, amply justifies describing #Zionism - a neo-fascist political ideology that has nothing to do with Judaism - as implacably racist in character and deed.

By the way, @netanyahu (Mileikowsky) is an Ashkenazi Polish jew.

Here's where the Zionists explain that Israel has a right to defend itself against children. BTW SS general Otto Ohlendorf commander of Einsatzgruppe D, also thought a state had the right to secure it's future by murdering children. Amazing isn't it how Nazism and Zionism have so [Show more](#)

Q. Will you explain to the Tribunal what conceivable threat to the security of the Wehrmacht a child constituted in your judgment?

A. I believe I cannot add anything to your previous question. I did not have to determine the danger but the order contained that all Jews including the children were considered to constitute a danger for the security of this area.

Q. Will you agree that there was absolutely no rational basis for killing children except genocide and the killing of races?

A. I believe that it is very simple to explain if one starts from the fact that this order did not only try to achieve security, but also permanent security because the children would grow up and surely, being the children of parents who had been killed, they would constitute a danger no smaller than that of the parents.

Obliterating Palestinian Children and Wombs

One indelible truth about the #GazaShoah is that the killing of children is a conscious Israeli objective – irrespective of any other consideration. Assessing this holy grail coldly, Israel's aspiration is understandable. After all, the child survivors of the #GazaHolocaust will almost certainly grow up to implacably hate Israel, taking up arms against it in one form or another. Israel has backed itself into a corner where it has no choice but to obliterate not only Palestinian children but also the Palestinian wombs that beget them.

This theme runs across subliminally or overtly in the diatribes about Gazans of the likes of Jewish #ZioFascists such as Bezalel Smotrich, Ben Gvir, Nissim Vaturi, and #MosheFeiglin.

Feiglin, ultra-right-wing Zehut's leader and a former Knesset member, in a Channel 14 interview on 20 May 2025, summarised Israel's intent well: "Every child, every baby in Gaza is an enemy... We need to occupy Gaza and settle it, and not a single Gazan child will be left there. There is no other victory."

Auschwitz Holocaust <> GazaShoah

Just watched The Last Musician of Auschwitz, a deeply evocative documentary about that death camp. It leaves one not just tearful with despair but also with a stark clarity about the magnitude of inhumanity that all so-called civilised races and faiths are capable of. (The Nazis promoted nondenominational Christianity.) Stray thoughts on the 80th anniversary last year of the liberation of Auschwitz on January 27, 1945:

1. It is surely ironic that while Israel, the perpetrator of the holocaust in Gaza, the liberators of the camp, Russia was not invited. (27 million Russians were killed in WWII.) Was this consistent with the spirit of the occasion?
2. Did they hear the double-edged point made by one of the Auschwitz survivors, Turski, "Let us not be afraid to convince ourselves that we cannot solve problems between neighbours. All the hatred and hate speech led to armed conflicts between those neighbouring peoples and ethnic groups. That always ended in bloodshed...We must all reawaken our collective conscience to transform this hatred [antisemitism] that has so powerfully ripped our society." Or by another survivor, Tova Friedman: "We were victims in a moral vacuum, but today we have an obligation, not only to remember, which is very important, but also to warn and to teach that hatred only begets hatred, killing more killing."
3. It is clear that the #Ashkenazi @netanyahu and his neo-Nazi murderous cohort have forgotten nothing and learnt nothing. Just like the Bourbon Dynasty in France.
4. The ruling political culture of Israel and its pitiless murders in Gaza are reminders of the precept that it is only the much-abused who know how, in turn, to abuse systematically.
5. The above applies in spades to Hamas, Hezbollah, and other Iranian-financed abhorrent Islamic breeds, who carry out mindless terrorism.
6. It can almost be guaranteed that the surviving children of the holocaust in Gaza will, in turn, continue the cycle of abuse of the Judaic faithful. That is why Israel is intent on killing every child born of a Palestinian womb; tragically, it has so cornered itself that it has no choice.
7. The uncharitable watching the century-old Arab-Israeli conflict might well conclude with the lament, "A plague on both your houses."

Money, money, money

Does money validate the cause? In other words, reparations should be paid to the Jewish community for any hate speech.

Well, there is a long-standing precedent in that Germany and other Western governments are still paying reparations in the form of international support, raw cash and arms for their moral failure during WWII. The #1stShoah continues to be a cash cow, long used adroitly by #Israel. Now the 'moral' bill lands on the doorstep of the Australian taxpayer, even though #Australia had nothing to do with that heart-rending European tragedy.

Hitler Innocent, Palestinian Guilty

This revelation by Ashkenazi @netanyahu should be welcomed by Germany and Western governments who have long endured the moral blackmail by Israel for their (now alleged) failure to prevent the heart-rending #1stShoah. In fact, clearly #Hitler has been wrongly saddled with the #Holocaust for over 80 years. A time for a collective apology, no?

Indeed, the disgusting role of a Palestinian in the murder of 6 million Jews revealed by the Butcher of #Gaza obviously justifies the #2ndShoah?! Neo-Nazis in #Australia should be relieved. The increase in antisemitism here is the direct product of misinformed criticism of #Israel, not fascism they represent.

Picnicking Israelis,
Starving Gazans

Some of the most unedifying images to emerge from the #GazaHolocaust are of Israelis lolling on Tel Aviv beaches or picnicking on hilltops near Sderot, watching the bombardment of northern Gaza.

These 'innocents' are as complicit as @netanyahu and his murderous cohort of #Ashkenazis are guilty of #Holocaust2. As #SigmundFreud wrote: "Think of the vast amount of brutality, cruelty and lies which are able to spread over the civilised world. Do you really think that a handful of ambitious and deluding men without conscience could have succeeded in unleashing all these evil spirits if their millions of followers did not bear their guilt?"

Zionists & Western Liberalism

Kirk's views confirm the long-held, deep-seated antisemitic strain among Anglo societies. There is enough evidence to suggest that it has been a long-standing Israeli policy to encourage, as Kirk says, "neo-liberal" policies in the West for encouraging non-white migration so that antisemitism is diluted and greater reliance is placed on Jewish funding and support for Israel.

A parallel is @netanyahu 's funding of Hamas (through Qatar) - over \$1bn since 2007 - to undermine its more moderate Palestinian competitors, and, at the same time, hoping that an emboldened Hamas will overreach itself. Stupidly, it did precisely that with its barbaric attack on 7 October 2023. As for Israel, 7 October now justifies the #GazaShoah and the erasure of the Palestinian people. #GazaHolocaust #Auspol2025

Gaza Shoah – Shimon Peres

Shimon Peres was probably the most revered and beloved figure in Israel. One of its founding fathers, he was PM twice and then President, and a Nobel Peace Prize awardee. He dealt with 10 US Presidents from Truman to Obama ("closest friend").

In 2016, Peres made a striking point when asked how he would like to be remembered. He replied, "If I have saved the life of one child, that would be the greatest thing".

@netanyahu and his murderous cohort ruling Israel might like to reflect on those words as they systematically target and starve children because they will become "terrorists one day".

By the way, @LeiblerMark, Chairman of the Australia-Israel and Jewish Affairs Council, described Peres upon his death in 2016 as the "quintessential statesman on the world stage".

The Devaluation of Shoah

A provocatively valid observation.

Perhaps the German and Anglo guilt for their somnolence while 6 million jews were being murdered by the Nazis accounts for it. They are still atoning for it, and #Israel has made sure for 80 years that the dividends due for the #Holocaust are never forgotten.

Still, while Israel is almost invincible in the West Asian power stakes, it has, arguably, lost the battle for the hearts and minds throughout the world, particularly among the young. #Shoah has forever been devalued by its #GazaHolocaust. How can the Israelis ever hope to live in peace? Or with the goodwill of those who surround them?

Australians Against Holocausts

Thank you for this, @MikeCarlton01 . This visual of a peaceful march against the #GazaShoah will become, along with the newly emerged photos of the obliterated #Gaza, an iconic Record. It surpasses similar protests in other countries.

Here is a thought: If Australians, one of the most prosperous and happiest people with their way of life, come out on a Sunday, rain or hail, to protest peacefully on this issue, then that is a remarkable demonstration of commitment to their unique and ingrained civilisational value of "fair go". #Barbaric Hamas can never be forgiven for bringing down on its own people the wrath of the Judaics, but equally, Ashkenazi @netanyahu and his murderous cohort can not be forgiven for #Holocaust2.

It is sad that the #GazaGenocide has devalued forever #Holocaust1, the murder of Six Million jews at the hands of #Hitler's Third Reich.
